On the 15th inst., a council was held, in which the Indians were told what would be required of them by the government. They said that their professions of peace were sincere, and this is fully credited by all who saw them. They turned over to the agent upwards of 1,450 ponies and horses; also their arms. The exact number of the latter I could not ascertain, but the collection embraces many carbines taken in the Custer massacre. They are believed to have brought in many relics of that affair. Gen. Crook has given orders to spare no pains in the recovery of such things. In the evening the peaceable Indians gave the new comers a feast, and we had an opportunity to witness the famous Omaha dance. Five hundred Cheyennes are to pass Hat creek to-night and are expected here day after to-morrow. They notified Gen. Crook some days ago of their intention to surrender.

Still Coming in for Rations.

SPOTTED TAIL AGENCY, Neb., April 15.—About 1,000 more hostiles made a formal surrender of arms, ponies, etc., to Gen. Crook here yesterday. Their entry was very dramatic. Encircling Spotted Tail's camp and discharging their guns in the air, they called forth the whole force of that chief to greet them, after which their head chief delivered a short speech before Gen. Crook indicating a desire for peace by laying his rifle at the general's feet. Among the chiefs surrendering are One Who Touches the Clouds and Roman Nose, whose village was destroyed at Slim Buttes last summer by Capt. Miles.

A Disclaimer.

ALBANY, N. Y., April 17.—Senator Woodin will reply to Tweed's confession, so far as it relates to himself, in the Senate to-morrow. He explicitly denies the whole story, so far as it refers to him.

Another Disclaimer.

Hon. Charles J. Folger denies Tweed's story so far as it relates to him, and says Tweed never paid him any money. The Attorney-General says in the *Evening Journal* he never knew of Tweed uttering a word derogatively to Judge Folger, although Tweed considered him a political and legislative opponent. The *Journal* says Tweed's counsel also says Folger's name is not mentioned in the confession.

A Penitent Defaulter.

NEW YORK, April 17.—At the session of Dr. Cuyler's church last night, Ex-Mayor Lambert resigned as clerk, and to-day made a statement concerning his management of his sister-in-law's money, saying he intended to replace all he used. He evinced much contrition and says he has surrendered all his property and prays the forgiveness of God and man.

WASHINGTON CITY.

Supreme Court Decisions.

WASHINGTON, April 16.—The following decisions were rendered in the Supreme Court to-day: United States vs Fox et al, error to New York Court of Appeals; case in which Charles Fox, of New York, devised his entire property to the Government of the United States or the discharge of the war debt. The Surrogate held the United States could not take real estate under the statutes of New York, and the will was void as to the devise of lands, but that the Government could take personal estate. The instrument was admitted to probate as the will of the personal estate. The Court of Appeals affirmed this judgment. It is here said there is no question but that the United States may hold real property in the State whenever needed for use of the Government in execution of its powers and that in such case if it cannot be avoided by voluntary arrangement with the owners, it may be taken against their will by the Government in exercise of the power of eminent domain, but the power of the State to regulate the tenure of real property within its limits and means of its acquisition and transfer and rules of its descent and the extent to which testamentary disposition of it may be exercised by its owners is held to be the undoubted right of the State. This reply follows from its sovereignty within its limits as to all matters over which jurisdiction has not been expressly or by necessary implication transferred to the Federal Government. As the statutes of the State of N.Y. prohibits such devises there is no power to make them. The judgment of the Court of Appeals is affirmed.

Miller et al vs. Dows et al, appeal from the Circuit Court of Iowa. The courts held that where a railroad is located in part within the district where jurisdiction is invoked and the mortgage covers the entire property, there is authority for a decree of foreclosure. It is said that to hold otherwise would be disastrous not only to those owning the road but to holders of bonds secured by mortgage.

Counterfeiters Nabbed.

WASHINGTON, April 17.—Officers of the secret service made an important arrest of counterfeiters at Green Point, Pa. St. Louis and Wheeling, West Va. Among those arrested is Hon. Thomas W. Marion, of Green Co., Pa., who formerly represented that county in the legislature. He sold counterfeit money to the agent of the service and represented he had frequently addressed the State House of representatives with pockets full of counterfeit money. The other parties arrested were Rufus Mitchell, W. F. Stroulde, J. Edwards, Peter Roger and Giovanni Georgitto.

Montana Affairs.

WASHINGTON, April 16.—The Government, represented by the War Department and the Postoffice Department, is making every preparation for protection of visitors to the Yellowstone during the coming summer. Gen. Sherman is in favor of extending it. Some time ago he asked the Postmaster General to extend mail service to the Yellowstone, and will himself visit that section during the warm weather. In obedience to general demands the Postoffice Department ordered a tri-weekly mail service from Bozeman and Fort Ellis, Montana, to Tongue river on the Yellowstone, distance 350 miles. The contract has been awarded to S. S. Huntley at $34,000 per annum. Service to begin May 1st.

The Commissioners to Return this Week

WASHINGTON, April 16.—The President has no intimation as to when the Commission will return. The opinion is expressed that they may return by Saturday or Monday. The troops will doubtless be withdrawn, as intimate friends of the President say it is not to be expected he will pursue in Louisiana a course different from that in South Carolina, but it is an open question when it will be best to act. It is the desire of the President that the Commission shall have the fullest opportunity for the completion of their work.

Blaine vs. the Southern Policy.

CHICAGO, April 16.—The *Inter-Ocean's* Washington special says: A gentleman in the confidence of Blaine says the latter will attack Matthews at the opening of the session and combat the Southern policy in the same spirit as at last session. He will attack the President's policy, not the President. It is stated also that the Maine Republican press so violently oppose this policy that the friends of the administration are raising $20,000 to start an administration paper at Portland.

Object of Matthews' Visit.

Stanley Matthews' visit is said to be in order to persuade the President to have the army matter tided over so that the extra session will be unnecessary.

Debate not Wanted.

There is said to be great anxiety lest a debate on the Southern question should occur to the President's disadvantage and prevent the accomplishment of any good from the Southern policy, as it is understood here that Governor Hampton has already violated one of his pledges by his action concerning the State officials of South Carolina. The President declines to express an opinion on the matter until he fully understands it.

What Matthews Came For.

The *Tribune's* Washington special ridicules a reorganization of the cabinet, and says Stanley Matthews came here in connection with the Supreme Court.

Major Reno's Case.

WASHINGTON, April 16.—Major Reno, recently tried by court martial, on a charge of insulting the wife of a brother officer and sentenced to be dismissed from the service, has forwarded to the War Department a request for delay in the presentation of the case to the President, he claiming he has additional evidence which will tend to mitigation. His request is granted.

Eight Hour Law.

CHICAGO, April 17.—The *Journal's* Washington special says the supreme court having decided that the law declaring eight hours' day work for government employes is merely a direction by the government to its agents and not a contract with the laborers, the Secretary of the Treasury will issue an order announcing this decision, and directing officers not to pay hereafter ten hours' wages for eight hours' work. The order given by President Grant that eight hours shall constitute a day's work is to be revoked.

New York Custom House.

Secretary Sherman has some trouble in obtaining a commission to investigate the New York custom house. Gen. Dix and Royal Phelps, who were asked to serve on it have both declined, the former on account of ill health.

Army and Navy Changes.

WASHINGTON, April 17.—First Lieut. E. G. Greenbauh has been detailed as professor of military science and tactics at the University of California. Lieut. C. W. Johnson ordered to the receiving ship *Independence* at Mare Island navy yard in place of Lieut. Geo. E. Erde, detached from that vessel and placed in waiting orders.

Embryo Soldiers.

WASHINGTON, April 17.—The West Point graduating class this year numbers seventy-seven, the largest ever graduated. There are only forty vacancies in the army, consequently thirty-seven will be appointed brevet second lieutenants under law, and promoted to grade of second lieutenant as vacancies occur.

LOUISIANA.

Packard to the President.

STATE OF LOUISIANA, EXECUTIVE DEPT.,
NEW ORLEANS, April 17, 1877.

PRESIDENT HAYES, Washington, D. C.—*Sir:* It is evident that the commission sent here by you, instructed, among other points, to secure the removal of obstacles to the acknowledgment of our government, and failing in that, to accomplish the recognition of a single legislature as the depositary of the representative will of the people of Louisiana, will fail to effect either of these results. The first proposition can be obtained by the abandonment of one or the other of the claimants to the Gubernatorial chair. As to the second proposition, involving unification of the two bodies, each now claiming to be the legislature of the State of Louisiana, it is possible the plan suggested by the commission that 104 members of the House and 33 members of the Senate whose election is not disputed, should be brought together in one body and the general assembly, thus constituted, should pass upon the qualification of contested members, and thus reorganized, should compose the conflicts in the coordinate branches of the government. This was acceptable to the Republicans, but is said to have been rejected by the Democrats. This plan was understood to emanate from the President and to embody his ideas of what was just and equitable. Republicans have indicated a willingness to accede to a reorganization of the legislature on this basis in defense of the President's wishes, even if in so doing they should waive undoubted legal right. It is presumed that from the President's standpoint that any other settlement would work injustice to one or the other of the contending parties, and it is not believed that the administration would sanction an injustice. The Republicans were willing to submit the claims of their State government to a legislature thus constituted. It is clearly indicated that Gen. Nicholls and his adherents have rejected this proposition mainly because of their fixed belief in the truth of the statement repeatedly made that the Foster-Matthews agreement is eventually in some way to give the government of the State to the Democracy. If this belief were removed from their minds perhaps they wouldn't be defiant, and would accept the the adjustment you offer. The reported purpose of the administration to carry out the suggestions of Foster and Matthews by withdrawal of U. S. troops is a standing menace to Republicans in this State and encourages the Democracy to emulate the arrogant policy of Gen. Hampton in South Carolina. I have received no answer to my letter of the 5th inst., requesting that the instructions of the commission should be amended and enlarged. I therefore most respectfully renew that request in view of the rejection by my political opponents of the reasonable proposition above referred to, made by the President through the commission. Your Excellency cannot fail to see that in thus expressing my willingness to submit my claims to a commission appointed without solicitation on my part or without either myself or my friends having any voice in its selection, it at least manifests the justice of my claims. Under present instructions the commission is charged with the investigation of matters not essential. Why should instructions be withheld which would enable it to report upon matters essential to the ascertainment of the legality of one or the other of the governments claiming recognition from the President, one of which must be entitled thereto under provisions of the constitution of the country. The commission thus far in its relations to the Republican party, has only suggested methods which directly tend to an abandonment of the contest irrespective of right or justice. I respectfully submit that the questions at issue are of consequence when weighed against the rights and liberty of a majority of the people. If lawful government in Louisiana can be overthrown by domestic violence with the consent of the Federal government originally called into existence for the express purpose amidst others of preventing such an occurrence, what State in the Union may not hereafter be subject to similar revolutions? Are the American people willing to see this precedent established? Earnestly requesting your immediate action on the facts presented, I have the honor to be very respectfully, your obedient servant,

S. B. PACKARD, Governor.

Nicholls' Legislature Resolves.

NEW ORLEANS, April 16.—The Nicholls Senate to-day passed the following joint resolutions and preamble, which are part of the plan of adjustment:

WHEREAS, The people of the State of Louisiana, after years of suffering and misrule, have, with supreme satisfaction, seen the wise determination of President Hayes expressed in his inaugural and already happily executed in South Carolina, to restore local self government of the Southern States, and peace and prosperity to the whole country by a return to rigid following of the wise principles of constitutional government, therefore be it resolved, etc.:

1. That we cordially endorse the policy of the President as enunciated in his inaugural, and we pledge our hearty cooperation and support in execution thereof.

2. That the execution of the policy in Louisiana will prove a source of inestimable blessings to her people, lift up their burdened spirits, heal their wounded prosperity, renew their wasted fields, bring happiness to their homes and give to their whole people, without distinction of color, future progress as well as moral material.

3. That as an earnest of our endeavor we hereby solemnly declare that it will be the purpose of the Government of the State of Louisiana, represented by Francis J. Nicholls, as its Executive head; first, to accept in good faith the 13th and 14th constitutional amendments in letter and in spirit; second, the enforcement of law rigidly and impartially to the end that violence and crime shall be suppressed and promptly punished and peace and good order prevail, and the humblest laborer upon the soil of Louisiana, throughout every parish in the State, of every color, shall receive full and equal protection of the laws in person, property and political rights and privileges, to the promotion of kindly relations between white and colored citizens of the State upon the basis of justice and mutual confidence. The education of all classes of people being essential to preservation of free institutions, we declare our solemn purpose to maintain a system of public schools by equal and uniform taxation upon property as provided in the State Constitution which shall secure the education of children of white and colored citizens with equal advantages. Desirous of healing dissentions that have disturbed the State for years past, in order that citizens of all political parties may be free from feverish anxieties of political strife and join hands in honestly restoring the prosperity of Louisiana, the Nicholls government will discountenance any attempt at persecution from any quarter, of individuals for past political conduct, and the Governor is requested to forward a copy of these resolutions to the President of the United States.

Plans of Adjustment.

NEW ORLEANS, April 16.—Members of the Nicholls' House are in caucus to-night, considering the adjustment proposal, which is that the present organization of the legislature shall remain intact; that the roll to be called be the same as that called by Clerk Trezevant on the first day of the assembling of the Nicholls legislature at St. Patrick's Hall, omitting the names of 7 members who have since been seated subject to contest. The house roll will include 62 Democrats, 57 Republicans, one Democratic member having died. It is understood this arrangement is satisfactory to the Commission and to Conservatives of the House caucus, and was adopted by the Senate to-day. The Commission, it is stated, advised the President of the acceptance of this plan by the Nicholls government, and will await the President's approval before submitting the matter to Packard.

THE EASTERN QUESTION.

Montenegrin Delegates go Home.

CONSTANTINOPLE, April 17.—The Montenegrin delegates left this city yesterday for home, via Odessa. Official communication contradicts the report that government contemplates proclaiming a state of siege in Constantinople or any other place in the empire.

The Czar's Movements.

ST. PETERSBURG, April 17.—The Czar leaves for the army immediately. He will confine himself to inspecting troops and will not take part in the campaign. The order of the day announcing declaration of war is not yet issued in official quarters. It is represented that the present situation compels Russia in a certain degree, to act single handed, Russia alone, among great powers, having mobilized.

Debate by English Lords.

LONDON, April 16.—In the House of Lords, Earl Derby replying to Earl Granville, vindicated the signing of the protocol because Count Schouvaloff objected to their publication. Count Schouvaloff was questioned as to whether Russia was prepared to disarm if England signed, and said that depends on Turkey's attitude. England declared that she signed with that object. If that object were not gained the document should be made serve another purpose. England attempted mediation between Russian and Turkey, but when one Power refused mediation, it mattered not what form was chosen. If England had not signed the protocol, all responsibility for war would have been thrown upon her.

A Turkish Offer.

LONDON, April 16.—A dispatch from Vienna says it is reported that the Porte shows an inclination to offer voluntarily to cede to Austria certain districts in Herzegovina, which will increase the strategical importance of Dalmatia and Buda.

Austro-Hungarian Affairs.

The Pesth *Correspondence* says the reports of the impending mobilization of the Austro-Hungarian army are untrue.

Bosnian refugees now in Austrian territory number 100,000, who cost their entertainers 300,000 florins per month. If in consequence of insurrection this number should be doubled Austria might be compelled to cross the frontier with an armed force to localize the insurrection. With this view, Count Izapary has received orders to make every preparation at the frontier for such necessity.

Another Day for Declaring War—Ignatieff and the Czar.

LONDON, April 16.—A St. Petersburg special states Ignatieff will accompany the Czar to Kischineff.

A dispatch from Pesth says it is expected war will be declared April 21st.

Movement of Russian Troops.

A *Times'* dispatch from Vienna says: According to *Political Correspondence* the four corps in Bessarabia have orders to begin a movement to the Pruth April 13th, while two corps are marching to take their place in Bessarabia.

A correspondent of the *Trendenblatt* confirms the report that the right wing, which is the weakest portion, crosses the Deucester at Choleyna and goes along the Austrian frontier to Paskang. The center goes by rail to Paskang. The left wing, the strongest, will cross the Danube between Remi and Ismail.

Austrian Interference.

A Paris correspondent to the *Times* says: It is a mistake to think the Turks would greet the Austrians as allies and allow them to penetrate into Bosnia without striking a blow. Such resistance would be an ephemeral struggle, but would necessitate a declaration of war by Austria. The entry of Austria on the scene would be looked upon as the signal for a wide conflagration.

Significant Visit.

A Belgrade special to the *Times* announces that Gen. Tseireff, Russian Panslavist, arrived there, and his visit is regarded as significant.

Turkish Forces in Roumania.

VIENNA, April 17.—A large concentration of Turkish troops in Widdin has caused considerable commotion in Roumania. The cabinet council has determined to increase the force stationed at Kalafat so as to resist the descent of Turks on Roumanian subjects. Roumania has laid its apprehensions before the Powers, repeating the assurance that it meant to keep neutral, which it could only do so long as Roumania was not made the theater of war.

Collision Between Turks and Montenegrins.

BELGRADE, April 17.—Several collisions are reported around the Montenegrin frontiers between Turkish troops and tribes of mountaineers who so lately assumed an insurrectionary character and were moving to join the Montenegrin regular forces.

Gathering her Forces.

BUCHAREST, April 17.—The movement of the Russian army from Kicheneff toward Ungheni has made considerable progress. The troops at the points of concentration near the Roumanian frontier, are being continually reinforced, and troops from the interior are filling the positions vacated by those going to the front.

Turkish War Council.

CONSTANTINOPLE, April 17.—It has been decided that the Turkish cabinet shall meet daily to deliberate on the situation. It is reported that on the outbreak of war Russian subjects will be expelled from Turkey.

BY ATLANTIC CABLE.

The "Claimant" Again.

LONDON, April 17.—All troops will be held in garrison this afternoon in readiness to turn out if required in view of the threatened march of a body of Tichbornites to the House of Commons to present a petition for the release of Arthur Orton. It is stated there are a hundred thousand of the petitioners.

German Recruits Called In.

BERLIN, April 17.—It is semi-officially stated that the order to German recruits residing abroad to rejoin their regiments is only the usual summons issued every year, and is not connected with political affairs.

Russian Movements.

A Constantinople dispatch says the Russian Ambassador will leave there next Thursday. The Czar goes to Kischeneff on the same day.

PARIS, April 17.—Several journals say the rumors about alleged unsatisfactory relations between France and Germany since the Papal allocution against the Italian government is wholly groundless. Relations between the two governments remain as before the Eastern crisis, entirely pacific.

Austrian Mobilization.

PARIS, April 16.—The question of mobilization is still in suspense in Austria.

Diplomacy Terminated.

ST. PETERSBURG, April 16.—The diplomatic campaign is finally terminated.

Floods in Russia.

Extensive floods prevail between Ungheni and Jassy. The Pruth is much swollen, and the railway from Ungheni to Kischineff, on which the army depends, is in a very insecure state. Engineers apprehend great difficulty in keeping up service during the passage of the troops.

Friendly to the French.

PARIS, April 17.—Duke de Cazes informed the French cabinet council to-day he had received from Berlin and London the formal assurances of the peaceful and conciliating disposition of Germany toward the French.

Clergymen in Politics.

President MacMahon has instructed M. Martel, minister of justice and public worship, to express to the Bishop of Nevers his entire disapproval of the latter's asking intervention for peace. They state that the President sees with pain the clergy meddling with the internal and foreign policy of the government.

Prusso-German Tariff.

BERLIN, April 17.—The German Federal Counsel adopted a bill proposed by Prussia imposing compensatory import duties on certain kinds of foreign iron and steel and iron goods.

Friedlander's Affairs.

SAN FRANCISCO, April 17.—The compromise between Isaac Friedlander and his creditors, remains still unsettled owing to the difficulty experienced in arbitration of the account with Dresbach & Co., of Davisville. It is probable if no conclusion is reached to-day in the settlement of that account, that it will be referred to a general meeting of the creditors for their decision.

Fire and Murder.

LOS ANGELES, April 17.—A fire last night about 9:30, destroyed an adobe boarding house at the corner of Fort and First streets.

It has leaked out that the Frenchman shot last Friday at Celestin's boarding house, was shot by a woman, who has since fled to San Francisco.

Mine Discovered.

Silver mines have been discovered 32 miles from Twelve Palms and 60 miles this side of Colorado river.

The Chico Murderers.

OROVILLE, April 17.—The town has been filling up with people from all parts of the county who have come to listen to the Chico quandaries. District Attorney Freer, assisted by Geo. Woods and Hutton, has made every preparation that could possibly be made in order to present evidence sufficient to convict the prisoners. They will leave no stone unturned, while on the other side Hon. P. O. Hundley has thrown aside all other business, and is gathering everything that will aid him in defense of the case. He will endeavor to show that the burnings are only the beginning of that irrepressible conflict between white laborers and Chinamen, that will continue until one or the other are driven from the country. As an evidence of the interest felt in the case there is not a room to be had at the hotels, and all of the private houses are filling. A special venire has just been issued for forty extra jurymen. These will be selected in a part of the country remote from Chico. Owing to the absence of a short-hand reporter the first case has been put over till 10 o'clock to-morrow.

Telegrams from Ottawa announce that six parties of surveyors will be formed here to locate the line of railway from Burrard Inlet to the Rocky mountains.

The price of admission to a social party in a California town the other day was advertised as "50 cents a head; potatoes taken at the door for 25 cents a sack."

A clerk with 2 years' experience, says that "since the 4th of March the number of applications that have been filed exceeds the entire number of postoffices in the United States."

A copy of William Blake's "Jerusalem" was sold in London, the other day, for £100. A first folio of Shakespeare, wanting Ben Jonson's verses, and having several leaves in fac simile, sold for £461.

"A want long felt," says the San Francisco *Chronicle*, "has at length been filled by the opening of a new drinking saloon on Montgomery avenue, at a point where five doors intervened without such an indispensable convenience."

There seems to be no limit to the absorbent power of the book-buying public as regards Dickens. Of the new Chapman & Hall edition no less than 42,000 copies of the "Pickwick Papers" were "subscribed" by the English book trade before publication.

Gen. Philip H. Sheridan, soon after the ringing "Sheridan's Ride" was written, said to a friend: "If the writer had seen the horse he never would have written the poetry." It was a young, gaunt and ugly animal, with a gait which nobody but Sheridan could endure.

Dr. Holland says that the most precious possession that ever comes to man in this world is a woman's heart. It would seem that he has never observed the tender care with which a man handles a meerschaum pipe that is just beginning to have a bilious look around the base of the bowl.

The thirteenth annual report of the Pennsylvania railroad company, makes a good showing, notwithstanding the financial depression. The gross earnings from traffic of all the lines east and west of Pittsburgh in 1876 reached $61,501,211 23—the net earnings exceeded $22,000,000—and the service by which these vast sums were earned, consisting of the movement of 3,594,862,558 tons of freight one mile, and 832,502,000 passengers one mile.

A Philadelphia journal says that the money which was devoted last winter to the support by charity of the 50,000 laborers out of employment in New York City, ought to have been used in buying tickets for them to go West and South. There is no economy in that, or humanity either. The West is crammed full of the same kind of unfortunates,—people who make hay while the sun shines, laying up nothing for a rainy day, and living like rich people until winter comes, when they starve.

There is a very remarkable movement going on in Ireland in favor of closing the liquor shops on Sunday. A petition from the city of Dublin has been sent to Parliament, a mile in length, and bearing 60,000 signatures. Meetings are frequently held to protest against the exemption of large towns from the operation of the proposed law. A careful house to house canvass of nineteen towns has shown that in them 100,000 persons voted for Sunday closing and only 1,331 against it. The bill is likely to pass at this session of Parliament.

The inquiry is frequently suggested by the election of A. C. Butler as Senator from South Carolina, and his presence at Washington, as the associate of reputable men of both parties, why he is not tried for his alleged participation in the Hamburg massacre. The Philadelphia *Times'* (Ind.) Washington special has this to say about it:

Senator-elect Butler silences Chamberlain on the Hamburg massacre, because Butler demands to know why Chamberlain would not allow him to be given to the grand jury, when the judge was a Republican, the prosecuting officers were Republicans and a majority of both the grand and traverse jurors were negroes. While he is at hand there is silence on the Hamburg affair, for he was admitted to nominal bail by a Republican judge, and has appeared in open court and asked for a bill to be presented, so that he might be tried and let the world know the truth, but it has thus far been refused by Chamberlain's friends.

Eastern Freights and Markets.

NEW YORK, April 16.—There was considerable movement in the California freight market to-day, and those vessels first on the list for departure did very fair business. This improvement is owing somewhat to the impression that rates of freight will be materially advanced after the present line of ships has been got off, as owners are not at all disposed to accept current rates for such vessels as they have to offer particularly so while the prospects of active transatlantic business is so encouraging. Consequently to the trade higher prices will have to be paid, which will necessitate an advance on freight rates. To-day rates are firm, but not quotably higher. Of ships loading, the *Sovereign of the Seas* will finish by the 23d, and should the weather continue as at present the *Friedlander* will close out on the 24th and the *Annie L. Small* by the close of the month. Steamer freights are quieter. The steamer to sail to-morrow and all her cargo engaged some days since.

At Philadelphia very fair business is doing and at rates about equal to those current on this market. The ship *Menom* sailed to-day with a full cargo, of which the following are the principal items: 75 barrels whisky, [illegible] cases petroleum, 3,600 kegs nails, 173 tons coal, [illegible] window glass, 881 bundles pipe, 1,700 pieces glass, [illegible] packages powder, 1,000 packages iron, [illegible] bundles sheet-iron, 100 pair car wheels, 501 bars railroad iron, and a lot of muck bars. Owing to some unexplained delay, the papers of the ship *Jamestown*, which sailed from Philadelphia on the 29th ult., have just been received here. Her [illegible] 500 cases oysters, 340 cases [illegible], 110 barrels whisky, 40 cases leaf tobacco, 140 [illegible], 4,134 boxes window glass, 2,861 packages iron, [illegible] pair car wheels, 400 tons coal, [illegible] powder and a lot of muck iron; also a large quantity of water pipe, lumber, glassware, empty packages, etc.

With much stronger cable advices as to the position of the breadstuff interest in foreign markets, and very moderate offerings of both our own grain here, a further sharp advance is reported in values which tended to check operations, though much more confident inquiry was noted. In good part prices of flour are speculative, quoted up, in most instances fully 10@25c per barrel, and the principal receivers offering supplies very reasonably. The demand is active on part of speculative account, but to a moderate extent for export. Spring wheat is held much higher in most instances, 2@3c and exceptionally full five cents, and straight lots of new crop are offered very sparingly, which circumstances with decidedly stronger range of ocean grain freights operated against free dealings. Winter wheat is held altogether above views of buyers. On very scant supply the market closed quiet but firm. Hide market very unsettled, holders firm in their views while buyers demand concessions. Spirits turpentine dull and lower, 41@42 for California market. Groceries quiet and unchanged.

United States Crop Reports.

WASHINGTON, April 17.—The statistical corps of the Department of Agriculture report upon the condition of wheat in 868 counties of the winter wheat region. From 218 the returns are comparatively unfavorable. In 650 the condition is varying from average to superior. Thrift is indicated in the Atlantic States north of North Carolina and those of Ohio Valley. There has been far less injury from frost than usual. Of 830 counties, only 45 report below average, and six-sevenths of the reports from the middle States are favorable. In Missouri unfavorable returns are from 15 of the 86 counties reported. In Kansas from 17 of the 38 counties grasshopper ravages are reported. In 22 counties of Eastern Kansas, from Nebraska to Indian Territory, as far west as Saline county, the wheat growing district is also alive with grasshoppers, which threaten the destruction of crops in several counties. More than 20 counties report the hatching of spring broods. There is an increase of the area of wheat in Texas, and the prospects are favorable, with the exception of grasshopper ravages. In other adjoining States dry autumn and variable winter have depressed the condition of wheat below average.

The Chicago *Tribune* has a page of brief reports from Kansas, Iowa, Minnesota and Nebraska, in regard to the prospects of the grasshopper crop next year. They all tell the same story. Large areas in all these four States, as well as Missouri, Arkansas and Texas are sown pretty thickly with grasshopper eggs. Some of the correspondents think the February thaw and the subsequent freezing, destroyed a great many of them; but the weight of testimony is that the eggs are in the main still sound and will hatch out.

General Sir William Koolles, now eighty years of age, will be the new "Black Rod" of the House of Lords, at a salary of £2,500 per annum and a residence.

ANY WAY TO SUIT.—"Now, then, state your case," said a Detroit lawyer the other day, as he put the $5 bill away in his vest pocket.

"Well," began his client, "suppose the man living next door wants to put a barn right up against my line, coming within two feet of my house?"

"He can't do it, sir—can't do any such thing," replied the lawyer.

"But I want to put my barn right up against his line," remarked the client.

"Oh—ah—yes, I see. Well, sir, go right ahead and put your barn there. All the law in the case is on your side."—*Detroit Free Press.*

The Rochester *Democrat* says: "The sale of Bibles in Chicago is said to be three times as great as it was a year ago. Mr. Moody drew attention to the work, and they think it is a new book."

NewspaperARCHIVE®

The Daily Oregonian.

WEDNESDAY MORNING, APRIL 18, 1877.

SUFFICIENTLY ANSWERED.

The business affairs of the OREGONIAN seem to be giving several people more concern than they ought. Yesterday's *Standard* has a long article in relation to them, from which we extract the parts that contain the principal assertions and insinuations which that paper throws out:

> Many people wondered much when they heard that Smith Kearney had purchased a controlling interest in the OREGONIAN......Some tried to explain by saying that he had grown rich and ambitious and wanted an office. But that theory soon played out; indeed it began to be doubted whether he had really invested at all. They knew that the ostensible purchaser didn't have the extra cash necessary for the purpose......We think though they are now on the right track. It is to be a Hipple organ. Let us see. The Central Pacific is the deadly enemy of Oregon Eastern connection except over its route. ......We have shown how suspicion is fermenting in people's minds that it keeps Mr. Hipple supplied with money. It and Sargent have made Hipple chairman of the railroad committee. It needs Hipple in the Senate and must have him......Now, public opinion has settled down to the belief that Kearney has too much hard business sense to invest $30,000 in a newspaper. It is satisfied that Corbett has no longer an interest in it. It knows that the ostensible purchaser hasn't the wherewith......Who then furnishes the money? The circumstancial evidence points to the Central Pacific.

Much of the above is the product of officious and unseemly intermeddling with other's people's business, which no code known among men will warrant or justify; but we have reproduced it, notwithstanding its impertinence, just to meet and dispose of certain matters, once for all.

Mr. Kearney is a private citizen, does not seek notoriety, and has no relations with the public that justify the above use of his name. He has not purchased an interest in this paper, and there never was the slightest authority for coupling his name with it. Mr. Corbett held $30,000 of the stock. It was taken by the present editor and another person who already had an interest, and is fully paid for. These are business matters which, in an ordinary case, no one could have color of excuse for meddling in or inquiring into; but inasmuch as a newspaper must occupy a position in regard to important public questions, there is reason in the claim that the public have a right to know whether it is controlled or warped in its course by sinister or special influences.

Having shown that the persons who bought Mr. Corbett's interest in the paper have paid him for it, and with their own money, it ought not to be necessary to say more; but the reference to Mr. Mitchell and the Central Pacific Railroad gives opportunity to say that if Mr. Mitchell desires re-election to the Senate he has no reason to expect the support of the OREGONIAN and will not get it; and moreover, that we deem the position held by the Central Pacific Railroad Company highly injurious to the interests of Oregon. Our paper is the only one in our State that [illegible] and continues to point out [illegible] the greed and arrogance of this [illegible] with the similar [illegible] of the Union Pacific, [illegible] Oregon's chances for railway aid. The success of Mr. Mitchell in supporting the [illegible] the Senate, the claims of [illegible] eventually will [illegible] one hundred and eighty-one million dollars, all of which will be a loss, is not calculated to help Oregon's railway interests, but is, as we think, a great and positive detriment to them. The government is not likely to endow other railroads as we would desire so long as this enormous scheme to [illegible] it already has at stake, [illegible].

The owners of the OREGONIAN will pursue the newspaper business. The paper will have no candidate for the Senate or for any other position. Its criticisms of men and measures will never be based on partisan aims, or on personal grievances, individual interests or private resentments, but solely on matters that may be of concern to the public.

CHARMING MODESTY.

An address, directed against office-seekers and virtually ordering them to the rear, has been issued by the State Republican Committee of California. The address has been sent to Republican clubs throughout the State and printed in the prominent newspapers. The principal object is to suppress aspirants for the United States Senate. Aware that their party cannot win the legislature next September if any candidate for the Senate be allowed to push himself into prominence, the Committee take this method to utter a warning to all persons ambitious of this honor, that they will prosecute "claims" at the peril of their interests. The people are expected to rise up and quell every man who attempts to set things up, or to use party machinery for his own advancement. The address is leveled primarily at the pretensions of Senator Sargent, whose friends are believed to be active and effective in [illegible] his re-election. Not long ago the telegraph brought to this paper a long and fulsome account of Sargent's great services, as Senator, to the Pacific coast and to the country at large, and a "powerful statement" of the reasons which should move his State to return him. Believing that this electioneering document would be of no great value to Oregon readers we didn't print it. Some of the California journals also declined it. And now the secret respecting this dispatch which detailed Sargent's wonderful and successful career, is divulged. Like some of our own men in public place, the California senator does not permit that humble, but often excellent virtue, known as modesty, to keep him in the background. It transpires that he himself wrote or dictated the dispatch, which was carried to the general agent of the Associated Press, who permitted it to go. Probably it is this effort of Sargent's that has induced the committee to issue their manifesto. It is not an uncommon thing for politicians to try to keep themselves before the people by these little arts. It is easy for a Senator of this class to manage it so as to have his praises sounded at home, at judicious intervals. Oregon is not without experience in this line, and no doubt will have some more of the same sort.

PROPHETS OF ILL.

Mail advices state that the air is thick at Washington with the gloomy forebodings of those who oppose the line of policy which the administration has taken. They predict, say dispatches to the Chicago *Tribune*, that the Republican party as an organization in the cotton States will disappear, and that Hayes may even look out for a rebuke from his own State in the election next fall. It is asserted that the withdrawal of the military can have no other effect than to enable a minority which claims to have most of the property and intelligence, which is united by an old habit of domination, and is armed and organized for a movement of force, to wipe out all the forms of popular election and seize the government, and then by the same means [illegible] its power through forms of election [illegible] would only be mockery. And they [illegible] positively assert that Northern Republicans will not dare to remain either in South Carolina or Louisiana.

Possibly all this may come to pass. But the country does not believe it will. Did it so believe, the policy of conciliation would not be supported, and a popular sentiment would be manifest, which the President himself would be forced to obey. The old method of rigor and vigor in dealing with the subject would be continued, objectionable though it might be to all true ideas of government with liberty. But it is as wrong that intelligence and property should be deprived of influence in government as that the principle of popular suffrage, without regard to these qualifications, should be stamped out. It is possible to find a common ground on which these great interests, that have been made antagonistic in the South, may unite. At all events, the trial must be made.

It is said that the first edition of the Mormon Bible is now an exceedingly rare book. The Buffalo Historical Society has a copy of it. It was printed at Palmyra, N. Y., at the office of the *Wayne Sentinel*, then conducted by Pomeroy Tucker, who read the original proof sheets of the "new revelation." It was a long time before Joseph Smith could find a believer who was able to help him pay for printing the book, but at last the expense was met by Martin Harris, a deluded follower who mortgaged his farm to raise means for the purpose. The man who did the press-work is still living at Palmyra. It was once more generally known than now that the real author of the book was one Solomon Spalding, who intended it as part of a romance, to account for the peopling of America by deriving the Indians from the Hebrews of old. A person named Stephen Rigdon got a copy of the manuscript, which was altered by himself and Smith to answer their purposes.

A neighbor sees fit to thrust his ambitious finger into our business, and since one good turn may deserve another, it may be suggested to that neighbor that its intimation that a man of sense will not invest money in a newspaper may be taken as a hint that it is finding difficulty in getting actual subscriptions, paid up, for that joint stock company to carry on a newspaper which it is understood has so long been in process of incubation.

No, no, *Standard*, we did not misrepresent your position on the laws of journalism. Your position as first stated was so clumsily and unintelligibly expressed that no one was authorized to solve its ambiguity by giving it the meaning which you said afterwards it was intended to have.

TENNESSEE JUBILEES.—A very large audience greeted this favorite troupe last evening at the Taylor street church. The beautiful sacred songs which are a specialty of this company, lose none of their interest when transferred from the theater to the sacred halls of the church. Indeed, the members appear more at home than before the footlights, surrounded by the scenic accessories of the stage. As usual, Miss Reyno and the Misses Henderson were the favorites, being called out the second time in every instance, while Miss Lulu Henderson was complimented by a third encore. However, the whole company have no cause for complaint on that score, the entire programme being received with great favor. By special request, several pieces not down on the bills were rendered. The concert was given in aid of the North Portland Mission school, and the receipts will go far toward procuring a new library of which they stand in need. The performance this evening is for the benefit of the Taylor street Ladies Relief fund, and this being positively the last appearance of the company in this city, there should, and no doubt will be a crowded house.

RECEPTION.—Last evening was set apart for a general gathering of the members and invited friends of the Congregational Church in the basement of the church, in a social manner to pass the evening with the new pastor, Mr. Crusan and his wife. The large room in the basement of the church was well filled on the occasion, and a good, sociable time was experienced by all. The new minister is a pleasant gentleman, and will make friends.

INSANE PATIENTS.—Deputy Sheriff Thomas H. Reynolds, of Marion county, brought down last evening an insane woman, named Mrs. Saulsbury, who was committed to the asylum. An insane man was brought from down the river yesterday, and committed to the asylum. We are unable to learn his name.

BUSY AS BEES.—A correspondent writing from Rainier under a recent date says: "Farmers, lumbermen and fishermen are all very busy along the river getting ready for their business. Everything looks prosperous for a good season, as high water is not apprehended."

Persons who desire to invest in mining interests cannot do better than to purchase stock in the Camp Creek Consolidated Gold and Silver Mining Company. This corporation was organized over a month ago with a capital stock of $500,000. Only a small amount of stock is for sale. The company own about 30 acres situated in the richest portion of the mines. The mines have been thoroughly prospected and no doubt remains as to their extent and richness. Those wishing to invest in these mines can obtain all desired information by calling at the office of Parish & Cornell, Front street, between Alder and Washington, east side, one door south of O'Connor's store. Specimens can be seen at the office of the company's agents.

AMUSEMENTS.

The best evidence of the popularity of the Jubilee Singers and the really meritorious manner in which they render their weird, wild melodies is the fact that after having appeared before fifteen Portland audiences they are yet greeted nightly by crowded houses. This justly celebrated troupe will give its last concert in this city at Taylor street church this evening for the benefit of the Ladies Relief Society of the church. The house should be filled to its utmost capacity, the object being a meritorious one.

SOCIAL EVENTS.

This evening the ball under the auspices of the Mount Hood Hook and Ladder Company will be held at Odd Fellows' Hall, East Portland.

On the evening of the 25th the "Sparkling Coterie," a new social organization, will give a party at Emmet Guard Hall. Invitations have been issued.

PERSONAL.

Ex-Governor Abernethy is confined to his residence by illness.

Mr. Frank Warren, who has for the past six years occupied the position of teller in Ladd & Tilton's bank, has resigned and will, in future, act as resident agent of one of the fisheries. Mr. Watson, of the bank, will fill the vacancy.

For ladies underwear, well made, go to Emporium of Fashion.

"How about Louisiana?" is the pending question, aside from the favorable remarks in regard to Fabre's coffee.

ACKERMAN BROS.

Opened their new and elegant stock of clothing and gents' furnishing goods Saturday evening. Their stock is entirely new, fresh, and no remnants or old styles amongst their stock. Go and examine their new and fine stock of goods before purchasing elsewhere. Their prices are so low that they cannot be undersold in the State. Remember the place, corner of First and Washington streets.

REOPENED.—The Albina Iron Works have been reopened for a period, to enable workmen to complete some work. The reopening will give employment to many men.

If you miss this opportunity to hear the "Jubilees," you may not have another during a lifetime. Go to night by all means.

My wife says there is no use of my coming home to lunch while Barnes gets up such good ones.

I'm so glad—Hickory nuts, big ones, at Stone's.

Opposition or competition cannot compete with the long established and reliable clothing house of J. KOHN. He is selling his new stock at prices which cannot be undersold by any clothing house in the State.

NOTES FROM ALBANY.

Our regular correspondent sends the following items under date of 16th inst.:

The health of this city is unusually good.

The farmers in this county have already put in large crops, and are still adding more in view of a prosperous future.

But few fires during the past six months in this city, and yet the boys hold themselves in readiness to do good service if necessary.

A little excitement here on the Argentine Republic in South America as some of our citizens are liable to visit that country this season.

Boats are to be put on the Albany canal, for the purpose of carrying freight, such as flour, wheat and lumber, from Lebanon to this place.

Lebanon, some 14 miles from this place, has five stores, and is enjoying a good degree of prosperity. A new church is soon to be erected at that place.

The OREGONIAN is a welcome visitor in this place, and its friends expect great things at the hands of the new editor as he has years of experience in journalism.

An effort is being made by some parties to buy the Albany College and turn it over to the public school, but whether the church controlling this institution will sell or not, we cannot say.

The St. Charles hotel is to be opened this next Thursday by Mr. Frank, heretofore of the Albany House. Mr. Frank is well known, and no doubt will give good satisfaction to the traveling public.

THE PARSON SECURED.

PORTLAND, April 16, 1877.

TO THE EDITOR OF THE OREGONIAN:

Some of my old Republican friends are shaking in their boots for fear Hayes' policy is going to "kill the Republican party." If doing *right*, if pursuing the only course he *can* pursue and live, if humoring the brains, patriotism and statesmanship of the United States finally proves the *death* of the Republican party, I am willing to do for the "party" what the colored "brudder" said he would do for the church if it was killed by contributing too much to the Lord's treasury: "Bredren, no church neber died by gibbing too much to de Lord. Churches don't die dat way. But if dis church should happen to gib up de ghost by too much contribution, I'll jist climb to de roof, stick my toe nails in de wall, cotch hold ob de eave trough wid my left hand, and raisin my right hand toward God and heaven' say, 'Blessed be de dead dat die in de Lord'."
PARSON BILLY.

We read in a late English paper of a steam yacht, built in England for the Baroness Rothschild, 91 feet long by 13½ feet beam, which made 23.89 statute miles an hour on her trial trip.

Two Irreconcilable Conditions.

Debility and health are irreconcilable conditions. Weakly people—that is to say people who lack the vitality requisite for a vigorous discharge of each and all or the bodily functions—are invariably afflicted with some, though it may be a trifling, disorder of the system. Atony, or a want of nervous and muscular vigor, is accompanied by poverty of the blood and leanness. A certain way to overcome it and prevent the aggravated maladies to which it must ultimately lead is to use Hostetter's Stomach Bitters, which promote digestion and assimilation of the food, and thus are the means of furnishing the body with a supply of blood of a quality essential to its proper nourishment. Invigoration through the instrumentality of the matchless tonic protects the feeble from a host of bodily ills which lurk in ambush for the debilitated. The Bitters are an article which it is most desirable to keep constantly on hand.

Oppression after eating, headache, nervous debility, are the effects of indigestion. One or two at most, of *Parson's Purgative Pills* will give immediate relief.

Good Advice.

Now is the time of year for Pneumonia, Lung Fever, etc. Every family should have a bottle of BOSCHEE'S GERMAN SYRUP. Don't allow for one moment *that* cough to take hold of your child, your family or yourself. Consumption, Asthma, Pneumonia, Croup, Hemorrhages and other fatal diseases may set in. Although it is true GERMAN SYRUP is curing thousands of these dreaded diseases, yet it is much better to have it at hand when three doses will cure you. One bottle will last your whole family a winter and keep you safe from danger. If you are consumptive, do not rest until you have tried this remedy. Sample bottles 10 cents; regular size 75 cents. SANFORD'S RADICAL CURE For CATARRH,

Is Universally Recommended.

We have just received a communication from nearly every druggist in New England and the West, and the testimony is universally in favor of SANFORD'S RADICAL CURE FOR CATARRH. We believe there never was a remedy so popular wherever known, and certainly we feel that never was one more deserving of praise. Founded upon correct scientific principles, and calculated by the most accomplished physicians to meet the severest forms of Catarrh, the cures made by it have not only been numerous, but so remarkable as to excite public attention and cause the sale to exceed tenfold that of any similar remedy ever before compounded.

While many are anxious to make public their testimony in favor of the RADICAL CURE, others—and among this number may be found many of our most respected citizens—dislike to become publicly identified with so loathsome a disease. Hence in the following case we are unable to give the name, but are permitted to refer those who may call upon us personally to him, and to state the severity and condition of the case before and after using the RADICAL CURE, and also that the gentleman occupies a responsible office in one of our State institutions. We quote:

"I would not for the world permit my name to be used, although I have no doubt it would be of benefit to many now suffering as I have suffered; but I give you a brief statement of my case:

"**For two years I have taken bromide of potassa and bromide of ammonia every day. I never passed a single night without getting up once or twice to free my throat from the matter that had dropped into it during sleep, and finally I coughed during all this time. Since taking the RADICAL CURE I have taken no potassa or ammonia, have slept soundly every night without uneasiness or distress; not a particle of matter has dropped into my throat during sleep, and every symptom of cough has left me.**"

A wonderful result truly, all will say who know or can realize the extent and severity of this case. The gentleman has had eighteen bottles. This must satisfy the most sceptical that there is great merit in the RADICAL CURE. Its mode of preparation is new and original. Ignoring the old practices and remedies, Dr. Sanford selected a new field, and has demonstrated his method to be the only proper and never failing treatment.

The following recommendations are from

DRUGGISTS,

Who are competent witnesses to the work it is daily doing.

Deck your house from inward out,
Let there be an inmost shrine
Where to praise with gifts devout
Love both human and divine;

After that, the holiest room
Heap with choicest things that grow;

Nor through hasty pride forget,

A LOVE IDYL.

VERY ROMANTIC AND POSSIBLY WELL FOUNDED.

A delicious love idyl comes from Wayne county, Kentucky. A stalwart young Kentuckian of knightly bearing, passing through a Monticello street ten years ago, was noticed by a young girl sitting at a window of the most aristocratic house of the town, and she fell in love with him at first sight. She had wealth, culture and beauty; he was poor, [illegible] physique and intrepid [illegible] then on his way to seek a fortune [illegible] border in Texas. There he [illegible] to be proprietor of a ranch, and [illegible] his money to California and hunted for [illegible]. After many ups and downs, fortune [illegible], and he found himself the owner [illegible] at Silver City, N. M. The [illegible] had developed unusual [illegible] and became a contributor to the [illegible], the organ of the Reformed [illegible] published at Lexington. By some [illegible] girl had earned who the unconscious [illegible] of her fancy was, and, though he [illegible] her, the two corresponded [illegible] ten years. She never wrote a [illegible] persons' attractions nor family, [illegible] speak of his good fortune; he had [illegible] well stored with judicious reading, and [illegible] correspondence was only that of book [illegible]. Legal Tenders in Portland—buying 94½; selling,

We have no important changes to note in the local market either in the financial aspect or business generally.

The strike of the fishermen on the Columbia is regarded here as a very unfortunate event and calculated to bring disaster to the laborers themselves as well as to the owners of the canneries and loss to the people of the State at large.

The news from Europe continues to be a subject of much interest in commercial circles, and though the result of the present complications cannot be yet sufficiently prognosticated to enable business men to come to a reliable conclusion, they are watching the course of affairs with great attention and preparing to take advantage of any opportunity that may arise from the troubles in Europe to advance the commercial interests of this country.

Except in the matter of breadstuffs, which are still advancing, domestic produce remains at the figures last quoted by us. Wheat is nominal at $2@2 10 per cental.

Auction Sales of Wool.

For many years in Europe it has been a custom to hold regular auction sales of certain products. Such sales are attended by all parties interested either as buyers or sellers and have been found to be of much advantage to both classes. The plan has also been followed to some extent in this country, though it has not always been attended by success. Messrs. Falkner, Bell & Co. some time ago gave notice of a series of sales of wool at auction in San Francisco, though not without some misgivings as to the result. The first sale took place to-day, and a dispatch to us concerning it is as follows:

SAN FRANCISCO, April 17.—Falkner, Bell & Co. to-day held their first auction sale of wool at their new warehouse, on Townsend and Sixth streets. The enterprise has attracted considerable attention from wool-growers and dealers, being the inauguration of a series of similar sales expected to exert [illegible] influence on the market. The attendance was good and bidding spirited, the whole line being disposed of by 12 o'clock, the sale opening at 11. There were offered 1,115 bales California and 82 bales of Australian, all carefully graded, and prices were on the whole rather better than ruling at private rates. The bulk went off at from 13 to 18½c, some better grades bringing higher figures, and a lot of northern going at 22½c, while some poor and burry sold as low as 8¼@9c. The bidding was all by local houses, but it is believed that a considerable portion was actually taken for Eastern, probably Boston firms. The sale was considered by the projectors a complete success, surpassing their expectations as to the quantity taken and prices realized. It is expected another sale will be held within two or three months.

English Crops and Markets.

LONDON, April 16.—The *Mark Lane Express*, in its market review of the British grain trade, says the heavy rains have again flooded many low lying districts, destroying spring millage and injuring the growing crops. Winter-sown wheat has withstood the action of the rain, and if late frosts do not injure the plant, there appears no reasonable apprehension about ultimate prospects. Farmers continue to market their wheat very sparingly. An unusual excitement has prevailed in Mark Lane the past week and increased the strength which trade derived from the diminished imports, and the steady consumption of stocks was increased by the warlike aspect of the Eastern question. Odessa and St. Petersburg are about the only sources from which we could effect large imports of red wheat, and should war commence the door may be partially closed on supplies, as the Turkish fleet is thought sufficiently powerful to harrass the Black sea trade considerably. This contingency is especially momentous this year because America seems able to spare so little red wheat. A large advance in prices has made operators cautious, but where millers have been obliged to buy to meet requirements, a rise of 3 to 4 shillings per quarter in the week has been realized. The cargo trade shows an advance of 3 shillings. There have been very few arrivals of wheat at calling ports. Maize, after a long depression, suddenly came into favor and the value improved fully 2 shillings per quarter. Sales of English wheat last week were 3,215 quarters at 51s 5d per quarter, against 41,227 at 45s 2d per quarter for the same week last year. Imports into the United Kingdom for the week ending April 7th were 910,317 cwts of wheat and 145,291 cwts of flour.
